Materials for Young Learners

The features of good materials:

- Materials should be attractive and look fun.
- The language and content should be relevant and useful.
- Materials should promote discovery.
- Learner's attention should be drawn to linguistic features.
- Materials should provide opportunities for language use.
- Materials should repeat and review language.
- Materials should take into account different learning styles.
- Materials should move from input to output.
- Materials should move from controlled to free practice.
- Materials should scaffold learners to independence.
- Materials should provide opportunities for outcome feedback.
